## I. INTRODUCTION

### A. PURPOSE OF THIS REQUEST FOR PROPOSALS

The purpose of the Request for Proposal (RFP) is to solicit sealed proposals to establish a contract through competitive negotiations for the procurement of services to include technical, regulatory, and rulemaking assistance for a variety of Air Quality Bureau projects.

### B. BACKGROUND INFORMATION

The State of New Mexico is currently the third largest oil producer in the U.S. The increase in oil production has occurred over the last five years. As a result of this rapid increase in oil production, the agencies tasked with environmental oversight of the regulated entities have been overwhelmed by the volume of new permitted sources and the regulatory oversight of those sources. In an effort to assist the New Mexico Environment Department (NMED) in fulfilling its federally- and state-mandated requirements, NMED is requesting support in several sections within the New Mexico Environment Department's Air Quality Bureau (aqb).

NMED's aqb is seeking administrative, technical, and regulatory assistance to: develop regulations; research and prepare technical documents as required by the New Mexico Air Quality Control Act (AQCA) <https://codes.findlaw.com/nm/chapter-74-environmental-improvement/> to support those regulations; and develop ozone precursor emission reduction strategies to fulfill statutory requirements to address rising ozone concentrations. NMED's aqb is also seeking technical and regulatory assistance in: the review of permit applications and regulatory determinations; the review of compliance reports; the review of affirmative defense submittals; and assisting in the development of enforcement actions.

Pursuant to the Scope of Work (SOW), work may encompass different types of projects for each of the four sections of the aqb.

### C. PROCUREMENT MANAGER

1. NMED's aqb has assigned a Procurement Manager who is responsible for the conduct of this procurement whose name, address, telephone number and e-mail address are listed below:

- C. Confidential data is restricted to:
  - 1. confidential financial information concerning the Offeror's organization.
  - 2. and data that qualifies as a trade secret in accordance with the Uniform Trade Secrets Act, NMSA 1978 § 57-3A-1 to 57-3A-7.
  - 3. PLEASE NOTE: The price of products offered or the cost of services proposed **shall not be designated** as proprietary or confidential information.

If a request is received for disclosure of data for which an Offeror has made a written request for confidentiality, the Agency shall examine the Offeror's request and make a written determination that specifies which portions of the proposal should be disclosed. Unless the Offeror takes legal action to prevent the disclosure, the proposal will be so disclosed. The proposal shall be open to public inspection subject to any continuing prohibition on the disclosure of confidential data.

## **9. No Obligation**

This RFP in no manner obligates the State of New Mexico or any of its Agencies to the use of any Offeror's services until a valid written contract is awarded and approved by appropriate authorities.

## **10. Termination**

This RFP may be canceled at any time and any and all proposals may be rejected in whole or in part when the agency determines such action to be in the best interest of the State of New Mexico.

## **11. Sufficient Appropriation**

Any contract awarded as a result of this RFP process may be terminated if sufficient appropriations or authorizations do not exist. Such terminations will be effected by sending written notice to the contractor. The Agency's decision as to whether sufficient appropriations and authorizations are available will be accepted by the contractor as final.

## **12. Legal Review**

The Agency requires that all Offerors agree to be bound by the General Requirements contained in this RFP. Any Offeror's concerns must be promptly submitted in writing to the attention of the Procurement Manager.

### **13. Governing Law**

This RFP and any agreement with an Offeror which may result from this procurement shall be governed by the laws of the State of New Mexico.

### **14. Basis for Proposal**

Only information supplied, in writing, by the Agency through the Procurement Manager or in this RFP should be used as the basis for the preparation of Offeror proposals.

### **15. Contract Terms and Conditions**

The contract between an agency and a contractor will follow the format specified by the Agency and contain the terms and conditions set forth in the Sample Contract - Appendix C. However, the contracting agency reserves the right to negotiate provisions in addition to those contained in this RFP (**Sample Contract**) with any Offeror. The contents of this RFP, as revised and/or supplemented, and the successful Offeror's proposal will be incorporated into and become part of any resultant contract.

The Agency discourages exceptions from the contract terms and conditions as set forth in the RFP Sample Contract. Such exceptions may cause a proposal to be rejected as nonresponsive when, in the sole judgment of the Agency (and its evaluation team), the proposal appears to be conditioned on the exception, or correction of what is deemed to be a deficiency, or an unacceptable exception is proposed which would require a substantial proposal rewrite to correct.

Should an Offeror object to any of the terms and conditions as set forth in the RFP Sample Contract (APPENDIX C) strongly enough to propose alternate terms and conditions in spite of the above, the Offeror must propose **specific** alternative language. The Agency may or may not accept the alternative language. General references to the Offeror's terms and conditions or attempts at complete substitutions of the Sample Contract are not acceptable to the Agency and will result in disqualification of the Offeror's proposal.

Offerors must provide a brief discussion of the purpose and impact, if any, of each proposed change followed by the specific proposed alternate wording.

If an Offeror fails to propose any alternate terms and conditions during the procurement process (the RFP process prior to selection as successful Offeror), no proposed alternate terms and conditions will be considered later during the negotiation process. Failure to propose alternate terms and conditions during the procurement process (the RFP process prior to selection as successful Offeror) is an **explicit agreement** by the Offeror that the contractual terms and conditions contained herein are **accepted** by the Offeror.

### **16. Offeror's Terms and Conditions**

Offerors must submit with the proposal a complete set of any additional terms and conditions they expect to have included in a contract negotiated with the Agency. Please see Section II.C.15 for requirements.

**17. Contract Deviations**

Any additional terms and conditions, which may be the subject of negotiation (such terms and conditions having been proposed during the procurement process, that is, the RFP process prior to selection as successful Offeror), will be discussed only between the Agency and the Offeror selected and shall not be deemed an opportunity to amend the Offeror's proposal.

**18. Offeror Qualifications**

The Evaluation Committee may make such investigations as necessary to determine the ability of the potential Offeror to adhere to the requirements specified within this RFP. The Evaluation Committee will reject the proposal of any potential Offeror who is not a Responsible Offeror or fails to submit a responsive offer as defined in NMSA 1978, § 13-1-83 and 13-1-85.

**19. Right to Waive Minor Irregularities**

The Evaluation Committee reserves the right to waive minor irregularities. The Evaluation Committee also reserves the right to waive mandatory requirements provided that all of the otherwise responsive proposals failed to meet the same mandatory requirements and the failure to do so does not otherwise materially affect the procurement. This right is at the sole discretion of the Evaluation Committee.

**20. Change in Contractor Representatives**

The Agency reserves the right to require a change in contractor representatives if the assigned representative(s) is (are) not, in the opinion of the Agency, adequately meeting the needs of the Agency.

**21. Notice of Penalties**

The Procurement Code, NMSA 1978, § 13-1-28 through 13-1-199, imposes civil, misdemeanor and felony criminal penalties for its violation. In addition, the New Mexico criminal statutes impose felony penalties for bribes, gratuities and kickbacks.

**22. Agency Rights**

The Agency in agreement with the Evaluation Committee reserves the right to accept all or a portion of a potential Offeror's proposal.

**23. Right to Publish**

Throughout the duration of this procurement process and contract term, Offerors and contractors must secure from the agency written approval prior to the release of any information that pertains to the potential work or activities covered by this procurement and/or agency contracts deriving from this procurement. Failure to adhere to this requirement may result in disqualification of the Offeror's proposal or removal from the contract.

**24. Ownership of Proposals**

All documents submitted in response to the RFP shall become property of the State of New Mexico.

## **25. Confidentiality**

Any confidential information provided to, or developed by, the contractor in the performance of the contract resulting from this RFP shall be kept confidential and shall not be made available to any individual or organization by the contractor without the prior written approval of the Agency.

The Contractor(s) agrees to protect the confidentiality of all confidential information and not to publish or disclose such information to any third party without the procuring Agency's written permission.

## **26. Electronic mail address required**

A large part of the communication regarding this procurement will be conducted by electronic mail (e-mail). Offeror must have a valid e-mail address to receive this correspondence. (See also Section II.B.5, Response to Written Questions).

## **27. Use of Electronic Versions of this RFP**

This RFP is being made available by electronic means. In the event of conflict between a version of the RFP in the Offeror's possession and the version maintained by the agency, the Offeror acknowledges that the version maintained by the agency shall govern. Please refer to: <https://www.env.nm.gov/requests-for-proposals/>.

- B. Offeror must agree to maintain a record of the number of employees who have (a) accepted health insurance; (b) decline health insurance due to other health insurance coverage already in place; or (c) decline health insurance for other reasons. These records are subject to review and audit by a representative of the state.
- C. Offeror must agree to advise all employees of the availability of State publicly financed health care coverage programs by providing each employee with, as a minimum, the following web site link to additional information <https://www.bewellnm.com>.
- D. For Indefinite Quantity, Indefinite Delivery contracts (price agreements without specific limitations on quantity and providing for an indeterminate number of orders to be placed against it); these requirements shall apply the first day of the second month after the Offeror reports combined sales (from state and, if applicable, from local public bodies if from a state price agreement) of \$250,000.

## **29. Campaign Contribution Disclosure Form**

Offeror must complete, sign, and return the Campaign Contribution Disclosure Form, APPENDIX B, as a part of their proposal. This requirement applies regardless whether a covered contribution was made or not made for the positions of Governor and Lieutenant Governor or other identified official. Failure to complete and return the signed unaltered form will result in disqualification.

  1. is presently debarred, suspended, proposed for debarment, or declared ineligible for award of contract by any federal entity, state agency or local public body;
  2. has within a three-year period preceding this offer, been convicted in a criminal matter or had a civil judgment rendered against them for:

  4. has, preceding this offer, been notified of any delinquent Federal or state taxes in an amount that exceeds \$3,000.00 of which the liability remains unsatisfied. Taxes are considered delinquent if the following criteria apply:
    - a. The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or

judicial challenge. In the case of a judicial challenge of the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

- D. A disclosure that any of the items in this requirement exist will not necessarily result in termination of this Agreement. However, the disclosure will be considered in the determination of the Contractor's responsibility and ability to perform under this Agreement. Failure of the Contractor to furnish a disclosure or provide additional information as requested will render the Offeror nonresponsive.
- E. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the disclosure required by this document. The knowledge and information of a Contractor is not required to exceed that which is the normally possessed by a prudent person in the ordinary course of business dealings.
- F. The disclosure requirement provided is a material representation of fact upon which reliance was placed when making an award and is a continuing material representation of the facts during the term of this Agreement. If during the performance of the contract, the Contractor is indicted for or otherwise criminally or civilly charged by any government entity (federal, state or local) with commission of any offenses named in this document the Contractor must provide immediate written notice to the State Purchasing Agent or other party to this Agreement. If it is later determined that the Contractor knowingly rendered an erroneous disclosure, in addition to other remedies available to the Government, the State Purchasing Agent or Central Purchasing Officer may terminate the involved contract for cause. Still further the State Purchasing Agent or Central Purchasing Officer may suspend or debar the Contractor from eligibility for future solicitations until such time as the matter is resolved to the satisfaction of the State Purchasing Agent or Central Purchasing Officer.

## **A. DETAILED SCOPE OF WORK**

The NMED is seeking technical, regulatory, and administrative assistance on several different projects within the Bureau's mission. This includes, but is not limited to, several different types of assistance, including developing air quality regulations that target NOx and VOC emissions from the oil and gas industry, assist the compliance and enforcement section with performing inspections, reviewing excess emissions reports, reviewing compliance certifications, stack test reports, and developing a registration by rule program for small oil and gas well sites.

The contractor shall provide regulatory, enforcement, analytical, technical and administrative support services for NMED's AQB. The contractor shall submit all work products for review and approval to the appropriate NMED personnel prior to its preparation and issuance in draft or final, in accordance with the terms and conditions of the contract and directions in the Work Assignment and Technical Direction. NMED will review all products prepared by the contractor and make all final determinations. The contractor shall not make any decision for NMED nor develop NMED policy.

### **Work Assignment Development Process**

The agency will issue work assignments in accordance with the terms and conditions of the contract.

### **Overview of Services Requested**

NMED's Air Quality Bureau is comprised of four Sections: Planning, Compliance & Enforcement (C&E), Permitting, and Operations. Each of these sections may require contracted services (Services) under this SOW to meet their operational objectives. Examples of the services required by each section are listed below. Since a complete list of services cannot be predicted due to the need to respond quickly to directives, the listed services are in no way exhaustive, but rather indicative of the types of services required.

The work requested to be performed is technical and scientific in nature and may include regulatory requirements under the federal Clean Air Act <https://www.epa.gov/clean-air-act-overview/clean-air-act-text> and the state Air Quality Control Act <https://laws.nmonesource.com/w/nmos/Chapter-74-NMSA-1978>. The work may include, but is not limited to, regulatory development and support; research of air quality related issues; engineering and design analysis; industry emissions evaluation and analysis; data review and analysis; equipment control device and cost-effectiveness analysis; full and/or partial compliance evaluations and development of inspection reports; review and identification of Areas of Concern and enforcement case development; excess emissions analysis; project management and support; comprehensive public engagement for rulemakings; compliance report reviews; and recommendations, analysis, and support of development of enforcement actions due to violations of state and federal regulations and permits.

The contractor shall provide multidisciplinary expertise to perform a variety of technical, regulatory, and administrative tasks related to air quality projects in accordance with NMED-developed criteria. The following represent the types of tasks which the contractor shall perform, with instruction and guidance, as needed, from the NMED for Rulemakings, Enforcement, Inspection and Permitting assistance:

- a. Compile, review, analyze, and summarize excess emissions data and stack test data, and provide findings for pursuing enforcement actions by NMED.

- b. Compile, analyze, and summarize information to assist NMED in developing technical analyses as required by State Statute 74-2-5.3.
- c. Develop air quality regulations that require control of NOx and VOC emissions from equipment and processes in the oil and gas industrial sector in seven counties that are exceeding the Ozone NAAQS.
- d. Compile and summarize data to support revisions to enforcement models.
- e. Review, compile, and analyze information request responses collected from targeted regulated entities, including facilities within certain industry sectors, and make recommendations for pursuing enforcement actions.
- f. Collect, compile, organize, summarize and analyze information regarding the risk and benefits of various enforcement and compliance assurance strategies.
- g. Collect, compile, organize, summarize, and analyze information on the impacts of a pollutant source - or group of pollutant sources - within a geographic boundary.
- h. Review and analyze projects proposed or implemented as Supplemental Environmental Projects (SEPs). Provide technical support to NMED in determining engineering soundness, feasibility, and net results for: pollution prevention; multimedia chemical usage and emissions; direct environmental benefits; and any tax, or other economic, impacts on the respondent/defendant in an enforcement action.
- i. Assist the NMED in developing administrative and technical guidance manuals on subjects, including, but not limited to, the following: enforcement strategies; enforcement initiatives; inspection procedures and techniques; case development, settlement, and hearing procedures; compliance monitoring with remote sensing; self-monitoring user instructions, performance, and environmental audits. Provide print-ready documents or files, with appropriate technical editing, formatting, and graphics. The manuals shall provide background information and an overview of regulations, as well as detailed direction for inspections performed at a variety of facilities that are subject to the regulations.

**The Contractor may perform the following types of work:**

**1. Compliance and Enforcement Section:**

- a. Inspections Assistance: The Inspection Section will require assistance with the pre-inspection regulatory analysis of facilities, making on-site and off-site partial and full compliance inspections, post-inspection analysis of permits and regulations against information obtained during inspections, and developing inspection reports. Services may be required to perform pre-inspection preparation; preparation of permit and regulatory checklists; perform full or partial compliance evaluations of industrial sources to determine compliance with air quality permits and regulations; review, evaluate, and process the resulting inspection reports, including identification of areas of concern; and labeling each as to recommended follow-up status; and perform follow-up inspections as necessary to ensure compliance with enforcement settlement agreements.
- b. Excess Emission Reports: The Compliance Section will require assistance reviewing excess emission report submissions and determining if events should be excused under affirmative defense provisions in accordance with 20.2.7 NMAC. <http://164.64.110.239/nmac/parts/title20/20.002.0007.htm> The chosen contractor may be required to review, evaluate, and process these excess emission reports, including identification of areas of concern, performing affirmative defense analysis, and labeling each as to recommended follow-up status. Services may also include developing an NMED guidance document for handling excess emissions caused by third parties, including guidance

in determining whether third-party related excess emissions should be categorized as emergencies, or due to their frequent occurrences, should be included in their air quality permit.

- c. Compliance Test Reports: The Compliance Reports Section will require assistance reviewing compliance report submissions. Compliance reports are required by a wide variety of state and federal regulations, as well as air quality permits. Services may be required to review, evaluate, and process these compliance test reports, including identification of areas of concern and labeling each as to recommended follow-up status.

## 2. **Planning Section:**

- a. Ozone Attainment Initiative: As a consequence of the lowering of the Ozone National Ambient Air Quality Standards (NAAQS), New Mexico has a designated ozone nonattainment area in South Central New Mexico near Sunland Park. The Planning Section will require Services to assist in our Ozone Attainment Initiative, including data analysis, development of an appropriate strategic response, public outreach, development of regulations to reduce emissions from regulated equipment that emit ozone precursors in areas that exceed 95% of the ozone NAAQS, and Develop attainment plan(s) and regulations for areas exceeding the ozone NAAQS.
  - i. As the lead air quality planning agency for the State of New Mexico, except for Tribal Lands and Bernalillo County, NMED's AQB is responsible for planning efforts, including State Implementation Plan (SIP) development and modeling, to demonstrate attainment of the NAAQS mandated by the Clean Air Act (CAA). The New Mexico AQCA requires NMED to develop a plan to address elevated levels of O<sub>3</sub> when air quality is within 95% of the NAAQS (74-3-5.3, NMSA 1975).
  - ii. In 2015, the U.S. Environmental Protection Agency (EPA) revised the 8-hour O<sub>3</sub> NAAQS from 75 parts per billion (ppb) to 70 ppb. The NMED AQB operates O<sub>3</sub> monitors throughout the state that recorded elevated O<sub>3</sub> levels within 95% of the O<sub>3</sub> NAAQS based on monitoring data from 2016-2018. The affected areas requiring a control plan under the AQB's jurisdiction include: Eddy, Lea, Doña Ana, Rio Arriba, Sandoval, Valencia, and San Juan counties.
  - iii. The AQCA requires that NMED develop a plan to control the emissions of sources pursuant to attainment and maintenance of the standard in areas with measured concentrations approaching the O<sub>3</sub> NAAQS. Photochemical air quality modeling is required to identify sources of O<sub>3</sub> precursors that contribute to high O<sub>3</sub> concentrations and evaluate emission control strategies that will ensure continued attainment of the NAAQS in these counties. The photochemical air quality modeling will identify factors contributing to high O<sub>3</sub> in the affected counties and investigate future emissions control strategies that will ensure continued attainment of air quality standards in New Mexico.
  - iv. The AQB needs to fulfill several economic and technical analyses as required by statute as part of any proposed rulemakings in areas that exceed 95% of the ambient air quality standard for ozone.
- b. Notice of Intent (NOI) Registration by Rule (RBR): Fracking technology has resulted in an increase in drilling activity in the Permian Basin, which encompasses the Southeastern part of the state. The Permitting Section is experiencing a corresponding increase in NOI and permitting activity. A NOI-RBR would significantly reduce the workload of the Permitting Section and, thus, has become a Bureau priority. The Planning Section will require Services to assist in the development of this NOI-RBR, including analysis, Rule development, and public outreach.

- c. PM10 NAAQS Evaluation: Evaluate the effectiveness of the High Wind Dust Mitigation Plan for Doña Ana and Luna counties and the associated Fugitive Dust Rule with respect to maintenance of the NAAQS for PM10.

**1. Goals: The Goals will be based upon and meet the immediate needs of the Department.**

**2. Tasks: The Tasks will be based upon the immediate needs of the Department.**

"Campaign Contribution" means a gift, subscription, loan, advance or deposit of money or other thing of value, including the estimated value of an in-kind contribution, that is made to or received by an applicable public official or any person authorized to raise, collect or expend contributions on that official's behalf for the purpose of electing the official to either statewide or local office. "Campaign Contribution" includes the payment of a debt incurred in an election campaign, but does not include the value of services provided without compensation or unreimbursed travel or other personal expenses of individuals who volunteer a portion or all of their time on behalf of a candidate or political committee, nor does it include the administrative or solicitation expenses of a political committee that are paid by an organization that sponsors the committee.

**exceed (AMOUNT). This amount is a maximum and not a guarantee that the work assigned to be performed by Contractor under this Agreement shall equal the amount stated herein. The parties do not intend for the Contractor to continue to provide services without compensation when the total compensation amount is reached. Contractor is responsible for notifying the Agency when the services provided under this Agreement reach the total compensation amount. In no event will the Contractor be paid for services provided in excess of the total compensation amount without this Agreement being amended in writing prior to those services in excess of the total compensation amount being provided.**

B. Payment is subject to availability of funds pursuant to the Appropriations Paragraph set forth below and to any negotiations between the parties from year to year pursuant to Paragraph 1, Scope of Work, and to approval by the GSD/SPD. If payment is made by mail, the payment shall be deemed tendered on the date it is postmarked. However, the agency shall not incur late charges, interest, or penalties for failure to make payment within the time specified herein.

### **3. Term.**

THIS AGREEMENT SHALL NOT BECOME EFFECTIVE UNTIL APPROVED BY THE GSD/SPD Contracts Review Bureau. This Agreement shall terminate on **(DATE)** unless terminated pursuant to paragraph 4 (Termination), or paragraph 5 (Appropriations). In accordance with NMSA 1978, § 13-1-150, no contract term for a professional services contract, including extensions and renewals, shall exceed four years, except as set forth in NMSA 1978, § 13-1-150.

Contractor's notice of termination shall only be effective (i) if the Agency does not cure all material breaches within the thirty (30) day notice period or (ii) in the case of material breaches that cannot be cured within thirty (30) days, the Agency does not, within the thirty (30) day notice period, notify the Contractor of its intent to cure and begin with due diligence to cure the material breach.

C. Liability. Except as otherwise expressly allowed or provided under this Agreement, the Agency's sole liability upon termination shall be to pay for acceptable work performed prior to the Contractor's receipt or issuance of a notice of termination; provided, however, that a notice of termination shall not nullify or otherwise affect either party's liability for pre-termination defaults under or breaches of this Agreement. The Contractor shall submit an invoice for such work within thirty (30) days of receiving or sending the notice of termination. THIS PROVISION IS NOT EXCLUSIVE AND DOES NOT WAIVE THE AGENCY'S OTHER LEGAL RIGHTS AND REMEDIES CAUSED BY THE CONTRACTOR'S DEFAULT/BREACH OF THIS AGREEMENT.

D. Termination Management. Immediately upon receipt by either the Agency or the Contractor of notice of termination of this Agreement, the Contractor shall: 1) not incur any further obligations for salaries, services or any other expenditure of funds under this Agreement without written approval of the Agency; 2) comply with all directives issued by the Agency in the notice of termination as to the performance of work under this Agreement; and 3) take such action as the Agency shall direct for the protection, preservation, retention or transfer of all property titled to the Agency and records generated under this Agreement. The terms of this Agreement are contingent upon sufficient appropriations and authorization being made by the Legislature of New Mexico for the performance of this Agreement. If sufficient appropriations and authorization are not made by the Legislature, this Agreement shall terminate immediately upon written notice being given by the Agency to the Contractor. The Agency's decision as to whether sufficient appropriations are available shall be accepted by the Contractor and shall be final. The Contractor acknowledges that all sums received hereunder are reportable by the Contractor for tax purposes, including without limitation, self-employment and business income tax. The Contractor agrees not to purport to bind the State of New Mexico unless the Contractor has express written authority to do so, and then only within the strict limits of that authority.

#### **7. Assignment.**

The Contractor shall not assign or transfer any interest in this Agreement or assign any claims for money due or to become due under this Agreement without the prior written approval of the Agency.

**8. Subcontracting.**

The Contractor shall not subcontract any portion of the services to be performed under this Agreement without the prior written approval of the Agency. No such subcontract shall relieve the primary Contractor from its obligations and liabilities under this Agreement, nor shall any subcontract obligate direct payment from the Procuring Agency.

**9. Release.**

Final payment of the amounts due under this Agreement shall operate as a release of the Agency, its officers and employees, and the State of New Mexico from all liabilities, claims and obligations whatsoever arising from or under this Agreement.

**10. Confidentiality.**

Any confidential information provided to or developed by the Contractor in the performance of this Agreement shall be kept confidential and shall not be made available to any individual or organization by the Contractor without the prior written approval of the Agency.
