The Environment Department's mission is to protect and restore the environment and to foster a healthy and prosperous New Mexico for present and future generations.

Environment Department releases updated COVID-19 Watchlist

List includes New Mexico businesses with two or more rapid responses within the last 14 days

The New Mexico Environment Department (NMED) has updated its daily Rapid Response COVID-19 Watchlist, which includes New Mexico places of employment that have had two or more rapid responses in the last 14 days. There are currently 156 establishments on the Watchlist.

A rapid response is initiated when the state learns of a positive COVID-19 case in the workplace. NMED or the state agency initiating the rapid response will

New Mexico Environment Department

offer direction to establishments regarding testing, quarantining and isolating, disinfecting, and COVID-Safe Practices.

The Watchlist currently only includes organizations for which NMED conducts rapid responses, including grocery stores, restaurants, retail stores, gyms, salons and business offices. The Department will include other establishments on the Watchlist soon.

The Rapid Response COVID-19 Watchlist allows the public to make more informed decisions when patronizing establishments and also assists NMED's Occupational Health and Safety Bureau and other state and local regulatory agencies in evaluating whether organizations are complying with state public health orders and COVID-Safe Practices. State regulatory agencies may initiate compliance investigations and/or exercise enforcement when establishments fail to adhere to required practices.

The current public health order mandates certain establishments close for two weeks if they have four or more rapid responses within the last 14 days. For the purposes of this requirement, the rapid response count started at zero on October 23. The closure requirement applies to food and drink establishments, retail spaces, places of lodging, close-contact businesses as defined in the Oct. 22, 2020 public health order, and any other establishment that poses a significant public health risk as determined by the Department of Health.

When there are four or more rapid responses at a location within 14 calendar days, the New Mexico Environment Department will refer the establishment to the Department of Health, which will evaluate and make the decision on establishment closure. An establishment may be permitted to continue operating if the Department of Health, after consultation with the New Mexico Environment Department, determines that the business is a sole provider of goods or services within a community.

The current Rapid Response COVID-19 Watchlist and closure list, which includes all establishments that are currently required to be closed, are posted here.
