

Clean Cars & Trucks Rule for New Mexico

Clean Transportation Fuel Standard Panel *Transportation Infrastructure Revenue Subcommittee* *September 29, 2023*

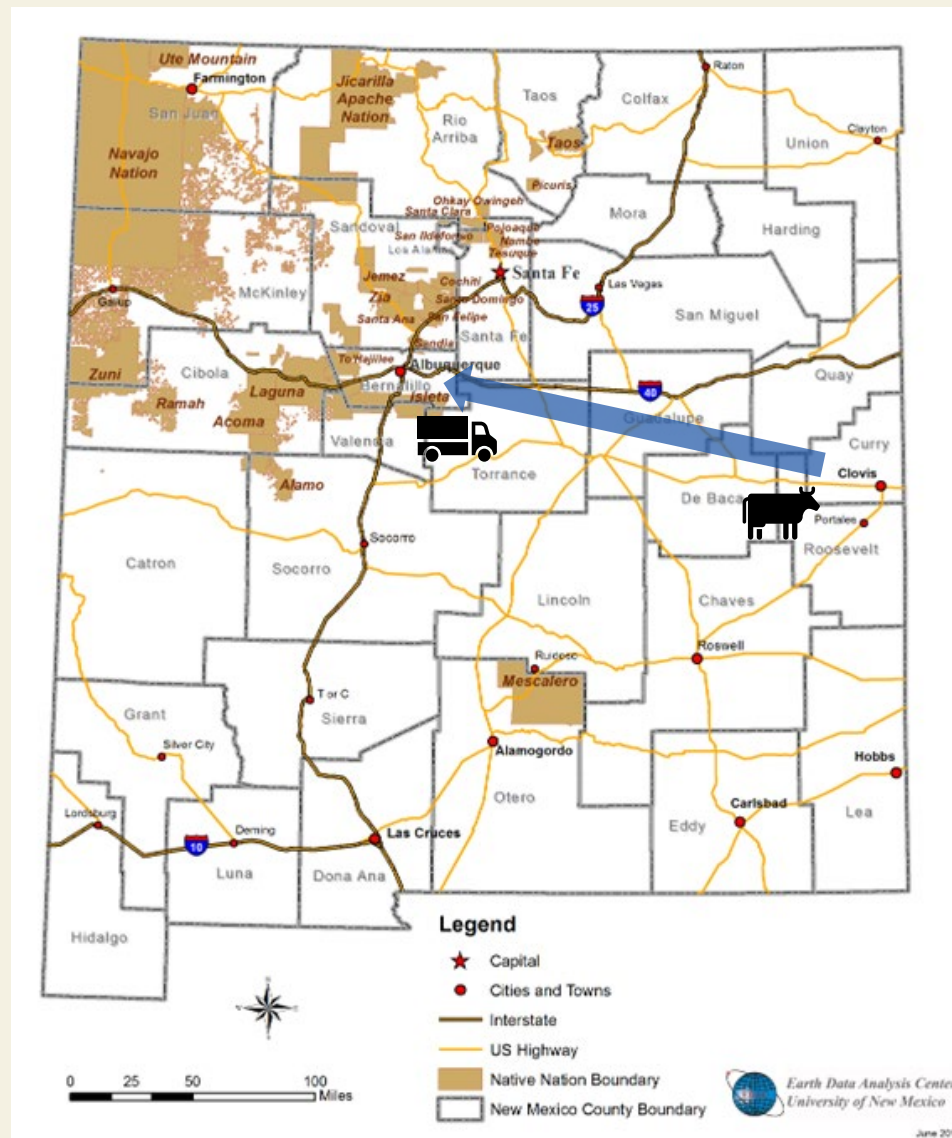

Michelle Miano, Director, Environmental Protection Division
Claudia Borchert, Chief, Climate Change Bureau

New Mexico Environment Department

New Economic Opportunities

- Expand opportunities for existing New Mexico businesses
- Attract new businesses and jobs
- Expand production of low carbon fuels for state use and export
- Win-win for agriculture
- Synergize with other low-carbon markets

Opportunities to Increase Access to Electric Infrastructure and Vehicles

- More affordable electric cars and trucks
- Additional electric vehicle charging stations
- Revenue for clean school bus fleets
- Revenue for local government clean public transit and fleets
- Benefits to and investment in low-income areas
