PUBLIC NOTICE
Groundwater Discharge Permits Proposed for Approval
February 26, 2021

Dear Interested Party,

The New Mexico Environment Department (NMED) Ground Water Quality Bureau (GWQB) hereby provides notice that the following Groundwater Discharge Permits have been proposed for approval. NMED will allow 30 days after the date of publication of this notice (or as otherwise provided below) for submittal of written comments and/or a request for a public hearing for a permitting action. Requests for public hearing shall be in writing and shall set forth the reasons why a hearing should be held. A hearing will be held if NMED determines that there is substantial public interest. After the administrative record for a permitting action is complete and all required information is available, NMED will approve, approve with conditions, or disapprove the Permit based on the administrative record.

NMED maintains a Public Involvement Plan (PIP) for each permitting action to plan for providing public participation opportunities and information that may be needed for the community to participate in a permitting process. PIPs may be viewed on-line at <https://www.env.nm.gov/gwqb/public-involvement-plans/>. Due to the Public Health Emergency, instead of placing a copy of the PIP for this permitting action in a public location, NMED will make the PIP available to the community by sending the PIP by email or US mail to any community member requesting a copy at no cost to the requester. An individual may request a copy of the PIP utilizing the Bureau contact information in this public notice. Please specify how you would like the document delivered. If you request a copy of a PIP, NMED will send a revised PIP if NMED updates the PIP in the future. NMED maintains facility-specific mailing lists for persons wishing to receive associated notices or provide input for a PIP for a permitting action.

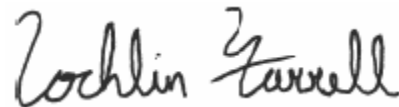

To learn more about a Discharge Permit and the permitting process, to be placed on a facility-specific mailing list, or to obtain a copy of a draft permit or PIP, please contact the NMED Permit Contact at the telephone number or address provided below. Draft permits may be viewed on-line at <https://www.env.nm.gov/gwqb/public-notice/>. Comments or a request for hearing regarding a draft

permit should be addressed to the GWQB, PO Box 5469, Santa Fe, NM 87502-5469, or emailed to the NMED Permit Contact.

If you are a non-English speaker, do not speak English well, or if you have a disability, you may contact the NMED Permit Contact to request assistance, an interpreter, or an auxiliary aid in order to learn more about a Discharge Permit or the permitting process, or to participate in activities associated with the permitting process. To the extent possible, NMED will arrange for requested interpretation services and accommodations or services for persons with disabilities. Telephone conversation assistance is available through Relay New Mexico at no charge for people who are deaf, hard of hearing, or have difficulty speaking on the phone, by calling 1-800-659-1779; TTY users: 1-800-659-8331; Spanish: 1-800-327-1857. Telephone interpretation assistance for persons that are a non-English speaker or do not speak English well is available at no charge when calling NMED.

NMED does not discriminate on the basis of race, color, national origin, disability, age or sex in the administration of its programs or activities, as required by applicable laws and regulations. NMED is responsible for coordination of compliance efforts and receipt of inquiries concerning non-discrimination requirements implemented by 40 C.F.R. Parts 5 and 7, including Title VI of the Civil Rights Act of 1964, as amended; Section 504 of the Rehabilitation Act of 1973; the Age Discrimination Act of 1975, Title IX of the Education Amendments of 1972, and Section 13 of the Federal Water Pollution Control Act Amendments of 1972. If you have any questions about this notice or any of NMED's non-discrimination programs, policies or procedures, you may contact: Kathryn Becker, Non-Discrimination Coordinator, New Mexico Environment Department, 1190 St. Francis Dr., Suite N4050, P.O. Box 5469, Santa Fe, NM 87502, (505) 827-2855, nd.coordinator@state.nm.us. If you believe that you have been discriminated against with respect to a NMED program or activity, you may contact the Non-Discrimination Coordinator identified above or visit our website at <https://www.env.nm.gov/non-employee-discrimination-complaint-page/> to learn how and where to file a complaint of discrimination.

Sincerely,

Lochlin Farrell
Ground Water Quality Bureau

“How can I be of assistance?”

Lochlin is available by telephone during normal business hours at **(505) 660-8061**. Lochlin can help you with questions regarding this public notice or public involvement and can arrange for an interpreter to be on the phone line for the duration of your call at no cost to you.

Notice: DP-1341: Freeport-McMoRan Tyrone Mine proposes to renew and modify the Supplemental Discharge Permit for Closure for the Tyrone copper mine facility. DP-1341 authorizes control of the discharge of water contaminants from the facility into ground and surface water following closure of mine units. The modification includes updating the Closure/Closeout Plan and cost estimate. The renewal also includes incorporating the monitoring requirements of the DP-27 Settlement Agreement into DP-1341. The DP-27 Settlement Agreement will be terminated after issuance of DP-1341. The facility is located at Highway 90 South, Tyrone Mine Road, Tyrone, Sections 34 and 35, T17S, R16W; Sections 1, 2, 11, 12, 13, and 24, T18S, R16W; Sections 17, 18, 19, 20, 21, 28, 29, 30, 33 and 34, T18S, R15W; Sections 19, 20, 29 and 30, T19S, R14W; Sections 3, 4, 5, 8, 9, 10, 14, 15, 16, 21, 22, 23, 24, 25, 26, 27, and 28, T19S, R15W in Grant County. Groundwater most likely to be affected is at a depth of approximately 0 - 300 feet and had a pre-discharge total dissolved solids concentration of approximately 200 – 1,500 milligrams per liter.

In addition to the requirements of 20.6.7 NMAC, DP-1341 contains additional conditions that the permittee shall comply with as authorized by Subsection I of 20.6.7.10 NMAC. NMED has provided written explanation for those additional conditions to the applicant and will provide the justification to interested parties upon request.
