Class V Underground Injection Control Wells**

Dear Ms. Hunter:

The purpose of this letter is to request an extension of time to demonstrate the mechanical integrity of the distribution piping associated with Condition No. 3 of Discharge Permit DP-1835 from the New Mexico Environment Department (NMED). The U.S. Department of Energy and Los Alamos National Security, LLC (DOE/LANS) request an extension until June 30, 2018.

As a result of the current schedule to install and test the two items listed below the mechanical integrity demonstration for distribution piping and the associated underground injection control (UIC) well will not be completed by the August 31, 2017 date contained in Condition No. 3 of DP-1835.

1. Both the well and the piping infrastructure associated with UIC well CrIN-6.
2. Piping manifolds at CrIN-1, CrIN-2, CrIN-3, CrIN-6, and CrEX-3.
