Pharmaceuticals  
Isopropyl Alcohol

## Household Hazardous Waste

Did you know that improper disposal of household chemicals can pose a threat to health, and contaminate land, air and water supplies?

Many chemicals can also cause serious injury to employees who pick up your garbage.

The information in this brochure will assist you in determining if waste items could be considered household hazardous waste; therefore, reducing the possibility of a release or accidental exposure.

If you have any of these items, please contact your nearest household hazardous waste collection center for proper disposal. Or go to:  
[www.recyclenewmexico.com/search/](http://www.recyclenewmexico.com/search/)

If you have any questions regarding Household Hazardous Waste, please call the New Mexico Environment Department's Hazardous Waste Bureau at (505) 476-6000.
