Dear Mr. Bearzi

Kirtland Air Force Base (AFB) has received your letter of 2 April 2010. The Air Force is currently evaluating the implications of your letter on our ongoing remediation efforts at ST-106 and SS-111. To facilitate a thorough review of those implications, Kirtland AFB requests a 45-day extension for the submission of each of the three work plans identified in your letter. If approved, the new submission dates would be 22 July 2010 for the Vadose Zone Investigation and Interim Measures LNAPL Plans, and 21 August 2010 for the Groundwater Investigation Plan.

If you have any questions or concerns regarding this acknowledgment and request, please contact Mr. John Pike, 377 MSG/CEAN, at (505) 846-4586.

Sincerely

  
ROBERT L. MANESS, Colonel, USAF  
Commander
