

**40 CFR 270.11  
DOCUMENT CERTIFICATION  
JULY 2011**

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision according to a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Kirtland AFB NM 87117-5000

Mr. John Kieling  
Hazardous Waste Bureau  
New Mexico Environment Department  
2905 Rodeo Park Dr East, Bldg 1  
Santa Fe NM 87505-6303

Mr. Kieling

In NMEDs letter dated 4 Jun 10, Reporting, Sampling, and Analyses Requirements for Solid Waste Management Units ST-106 and SS-111, Bulk Fuels Facility Spill, quarterly reports were required to be submitted within 60 days after the end of each quarter, as outlined in a table of due dates for quarterly reports on page 2 of the letter. Kirtland Air Force Base is requesting the due date for the quarterly reports be extended to a period of 90 days.

The request is based upon the extended amount of time required to collect the required data and complete the quarterly report compilation/validation. The project currently requires monitoring of 107 groundwater wells, 50 soil vapor wells, and the monitoring and associated maintenance of four soil vapor extraction systems. Collection of groundwater and soil vapor samples requires approximately 90 days, followed by a 45 day time period to complete all of the laboratory analyses and data validation to produce a complete data set without the final evaluation and compilation of the quarterly report. For this reason, KAFB requests the additional 30-days to ensure all information is reported accurately and in the requested format.

If you have any questions with regard to this submittal, please contact Mr. John S. Pike, (505) 846-8546.

Sincerely

  
THOMAS F. BERARDINELLI  
Director of Staff
