**PUBLIC INVOLVEMENT PLAN (PIP)**  
**Air Quality Bureau Air Permit Application**

Version P03.06.18

Applicant: Williams Four Corners LLC - El Cedro Compressor Station

Air Quality Permit Application Number: P046-R3

Location: Approximately 18 miles east southeast of Navajo Dam, Rio Arriba County, New Mexico. To aid in locating this facility, drive east from Bloomfield on Highway 64 to mile marker 100.5, facility is on the left.

Latitude: 36° 41' 21.0"

Longitude: -107° 24' 06.8"

**1. Overview of Air Quality Bureau's plan of action for addressing the community's needs and concerns for processing Air Quality Permit Applications:**

The New Mexico Environment Department (Department), Air Quality Bureau (Bureau) developed this Public Involvement Plan (PIP) for the processing of air quality permit applications in accordance with the requirements at 20.2.70 NMAC for the facility listed above.

The Bureau encourages the public to learn about and get involved in regulatory decision-making opportunities for this permit application. The purpose of this PIP is to provide public participation opportunities and information that may be needed to participate in this permitting activity.

This permit application does require public participation throughout different stages. The Bureau will meet the public participation requirements by following this PIP, which includes all applicable policy, regulatory and statutory public participation requirements.

In developing this PIP, community participation needs at the site were assessed to ensure appropriate promotion of public outreach by identifying whether there is a combination of environmental and demographic factors (i.e., low income community, minority community, limited English proficiency individuals, Linguistically Isolated Households, etc.) that may impact public participation. This assessment identifies community outreach needs and provides for public access opportunities above and beyond statutorily mandated requirements, and underscores the provision of adequate public access to information about this permit application.

As much as possible, public participation and informational activities related to this permit application will be held within the regulatory timelines outlined below.

- a. Bureau regulations at 20.2.70 NMAC require that the application must be ruled complete no more than 60 days after receipt. The Bureau will publish a public notice for this application in a newspaper of general circulation in the area closest to the location of the facility, when the draft permit is issued for comment. See section 4.d below for more information.

The public notice contains a paragraph in Spanish directing Spanish speaking interested parties to call the Air Quality Bureau at (505) 476-5557 to speak to Spanish speaking staff for additional information regarding this permitting action.

- b. The Bureau will provide a copy of the public notice and the air quality permit application to the NMED field office at:

**Farmington**  
3400 Messina Drive, Suite 5000  
Farmington, NM 87402  
Phone (505) 566-9741  
FAX (505) 566-9757

- c. Bureau regulations require that the public notice must be sent to interested parties maintained on a mailing list. See Section 4.b for more information.
- d. Bureau regulations require that the public notice must be sent to the “affected programs” as defined at 20.2.70 NMAC. See Section 4.f below for more information.
- e. Public notice shall be followed by a 30-day public comment period that starts on the day that the notice is published in the newspaper. See Section 4.h below for details.
- f. Bureau regulations require that the permit must be issued, issued subject to conditions, or denied within eighteen (18) months after the department deems the application administratively complete.

## **2. Contact list of Department and Bureau staff with phone numbers and email addresses:**

### **a. Bureau contact for questions about this application or PIP:**

Andrew Ahr  
New Mexico Environment Department  
Air Quality Bureau  
525 Camino de los Marquez, Suite 1  
Santa Fe, New Mexico, 87505  
(505) 476-4342  
andrew.ahr@state.nm.us

See Section 1 above for contact information for the NMED District office.

In addition, a contact list for Air Quality Bureau personnel can be found at:

<https://www.env.nm.gov/air-quality/air-quality-bureau-contacts/>

In some cases, such as a request for information under the Inspections of Public Records Act NMSA 1978 §14-2 (“IPRA”), a more formal request for information from the Department or Bureau about the PIP may be required to be submitted in writing. Public information requests to the Bureau under IPRA should be addressed to:

Melissa Y. Mascareñas  
NMED Public Records Custodian  
P.O. Box 5469, 1190 St. Francis Drive  
Santa Fe, New Mexico, 87502  
Telephone (505) 827-2855  
Email: melissa.mascareñas@state.nm.us

For additional information on public records requests, please see the New Mexico Attorney General’s [IPRA Guide](#).”

**b. Non-English Language Speaker Assistance and Accommodations**

Non-English speakers may call the Bureau contact listed in this PIP and request language assistance services, such as an interpreter, so they can learn more about this permit application. Services may be arranged for translation of documents for meetings, for translators during meetings and for obtaining services for persons with disabilities. A phone-based interpretation service may be available for languages other than English.

The Bureau may hold public meetings, open houses, stakeholder meetings, and/or a formal hearing depending on the interest in the application. In the event that a public meeting will be held regarding this permit application, any person requiring non-English Language Speaker Assistance, assistance for an interpreter or auxiliary aid (e.g., accommodations for persons who are disabled) to participate in public meetings related to this permit application (if applicable), please contact the person listed in item 2.a above, allowing at least 14 days prior to the meeting date. TDD or TTY users please access the number via the New Mexico Relay Network, 1-800-659-1779 (voice); TTY users: 1-800-659-8331).

**c. Department Websites**

New Mexico Environment Department - <https://www.env.nm.gov/>

Air Quality Bureau - <https://www.env.nm.gov/air-quality/>

**d. Site Website**

The Bureau maintains a website location for the public notice for this permit application at:

<https://www.env.nm.gov/air-quality/public-notice-of-permitting-actions/>.

**3. Description of the community/stakeholder groups:**

To provide for adequate public participation opportunities and meaningful involvement of persons regarding this permit application, and to address potential or existing environmental justice areas, the affected communities must first be identified, informed about proposed environmental actions affecting the community, and invited to share their comments and concerns. The EJSCREEN tool developed by the U.S. Environmental

Protection Agency (EPA) helps identify communities that are low income and minority populations that may benefit from a variety of approaches for notification and outreach communication. This information is used to help encourage the community's involvement in the public process for environmental activities or actions.

Using the default 4- mile radius from the facility, the results of the EJScreen ACS Summary Report (attached) are listed in the table below.

Number of Households:	6
Minority percentage	92%
Percent that communicate in a language other than English at home	50%
Per capita income of community	\$ 13,546
National per capita income	\$ 29, 829

In addition, the following community stakeholder groups have been identified: State of Colorado, Southern Ute Indian Reservation, Navajo Nation, Jicarilla Apache Indian Reservation, Ute Mountain Indian Reservation, Eight Northern Indian Pueblo Council, Inc. and WildEarth Guardians.

It is important for the Bureau to incorporate the linguistic and communication needs of this community when conducting public outreach and participation activities. To help accomplish this, the Bureau will provide information in non-English language (whenever applicable) and in English, in public comment notices, public meeting notices (if applicable), and other announcements (radio broadcasts, brochures, signs, postcards, etc.) and strive to make public participation efforts as inclusive as possible within Bureau budget and time limitations. Informational flyers shall be posted at the local post office, community center and public library (whenever applicable) that also describe public information repositories.

**The Bureau maintains information regarding this air quality permit application at the following locations:**

- a. On the Air Quality Bureau website, see Section 2.c above.**
- b. At the District Office listed in Section 1.b above.**
- c. At the main office location:**  
New Mexico Environment Department  
Air Quality Bureau  
525 Camino de los Marquez, Suite 1  
Santa Fe, New Mexico, 87505

#### **4. Detailed actions and outreach activities the Bureau Permitting Section will take to reach the affected public:**

##### **a. Overview**

The public may ask questions about this permit application at any time. Interested community members do not need to wait for a formal public comment period to contact the Bureau. However, the Bureau emphasizes that to be included in the administrative record, comments solicited by public notices about the proposed activity must be submitted during the noticed comment periods, and in accordance with the public notice. Additionally, the public may request to review site documents at the Bureau or one of the document

repositories listed in items 1 and 2 above. This is the most direct way to learn more about and be involved in the decision-making process for the proposed activity or proceeding.

Based on the demographics report discussed in the PIP, the history of public involvement at the site and the site background, basic information about public involvement opportunities will be in English. This information will include how to request materials in Spanish or to speak with Bureau staff through an interpreter. Further details about public participation for this activity are outlined below.

**b. Postal Mailing or E-Mailing of Notices to Persons on the Facility-Specific Mailing List**

Bureau regulations require the use of a mailing list. The Bureau maintains a mailing list that includes individuals interested in this permit application. This list is updated on a regular basis as a combination of all previously interested persons who requested that the Bureau provide them with information about permit applications for this facility. The Bureau regularly maintains contact information which is updated or supplemented, if additional information is found.

The list also includes addresses within fifty miles of the boundary of other states, local air pollution control programs, Indian tribes and pueblos. Interested persons providing both an address and email may receive physical mail and an email.

Additional individuals, organizations, and other interested parties are added to the mailing list as requested. If you would like to be added to the mailing list for this site, contact the permit writer listed in item number 2a above.

**c. Email Updates**

The Bureau may use email updates. To sign up for email updates, go to the AQB website at: <https://www.env.nm.gov/air-quality/> and click on the “Subscribe to Email Alerts” button (see graphic below):

**d. Notices in the State Newspaper and Local Newspapers**

The public notice for this permit application will be published in English in the Legal Section of the Farmington Daily Times newspaper.

Websites for these publications are listed below:

Farmington Daily Times

English: <http://www.daily-times.com/>

**e. Mailing to the Governor or President of Indian Tribes, Pueblos or Nations**

Bureau regulations and the evaluation of the site location and associated demographics, require notification to Tribes, Pueblos or Nations about this permit application.

Email notification will be sent to the contacts at the Tribes, Pueblos and/or Nations listed below:

[dpowers@southernute-nsn.gov](mailto:dpowers@southernute-nsn.gov)

JArchuleta@utemountain.org  
karena\_cstll@yahoo.com (Jicarilla Apache Tribe)  
taustin@navajo-nsn.gov

**f. Affected Local, State, or Federal Government Agencies, and Active Land Grants**

Bureau regulations require identifying and notifying local, state or federal government agencies about this permit application.

The following affected Local, State, or Federal Government Agencies will be notified by email:

US EPA Region VI  
State of Colorado  
Southern Ute Tribe  
Ute Mountain Tribe  
Jicarilla Apache Tribe  
Navajo Nation

**g. Public Meeting Notices, Public Comment Notices, and Other Notices**

The Bureau may hold public meetings, open houses, stakeholder meetings, and/or a formal hearing depending on the interest in the application. Based on historical information and the results of the initial screening, there is no public meeting planned at this time for this permit application. If it is determined that a public meeting will be required, notice will be provided to the community as follows:

- 1) Via a newspaper of general circulation in the area closest to the location of the facility.
- 2) Locations commonly frequented by the general public, such as a nearby post office, public library, or city hall.
- 3) All persons and organizations that have expressed interest and are on a list maintained by the Bureau.
- 4) Via a public service announcement to at least one radio or television station which serves the municipality or county in which the source is or is proposed to be located.
- 5) The notices will be translated for non-English speaking participants, if required.
- 6) The notices will include information for requesting accommodations for those with disabilities as listed in item 2b above.

The Bureau will locate an appropriate venue based on the availability to the community to access the meeting, and the specific needs of the affected community (e.g. size of community, community locations, impacts, etc.).

The Bureau may reschedule the meeting due to inclement weather. If rescheduled, the Bureau will provide as much advance notice as possible and reschedule for an appropriate time and date

Meetings will be scheduled to make them as accessible and user-friendly as practical, considering work schedules, dinner hours and other community commitments. To the extent possible, the meeting will be held at a location that is local and convenient, and meet American with Disabilities Act (ADA) standards. In addition, whenever practical and appropriate, translators for limited-English speaking communities, or assistance for hearing-impaired individuals may be available. Information in public notices for a public meeting will adhere to Bureau regulations, statutes and policies.

#### **h. Public Comment Periods**

Bureau regulations require that thirty (30) days shall be provided for the public and affected program comment on the draft permit. Interested persons may obtain the draft operating permit, submit written comments, or request a public hearing by contacting the permit writer listed in section 2.a above.

To determine the end of the EPA 45-day Proposed permit review period, see the “Operating Permit Timeline for New Mexico or Albuquerque” located on the EPA website at:

<https://www.epa.gov/caa-permitting/operating-permit-timeline-new-mexico-or-albuquerque>

### **5. LEP Services Evaluation**

#### **Factor 1 – Number and Proportion of LEP Individuals in the Community:**

- A. Speak English “less than very well”: 0 Proportion, %: 0
- B. Historical participation: The Bureau does not have any records indicating any participation by LEP individuals regarding this facility.

#### **Factor 2 – Frequency with Which LEP Individuals Come in Contact with the Program (Frequent, Occasional, Not Frequent):**

Not frequent. There is no record of any contact with LEP individuals regarding this facility.

#### **Factor 3 – Nature and Importance of the Activity (Moderately Important, Important, Very Important):**

Important. Oil and Gas development and production constitutes a significant source of revenue for the State. Permitting facilities that are demonstrated to be in compliance with state and federal regulations encourages responsible economic development for New Mexico. Permits issued in accordance with 20.2.70 NMAC must demonstrate compliance with all state and federal regulations, including health based New Mexico and National Ambient Air Quality Standards.

The applicant cannot proceed with their project without a permit. Bureau regulations require that final action must be taken on this permit application no later than 18 months after the application has been ruled complete.

#### **Factor 4 – Resources Available to NMED and Associated Costs:**

- A. Costs associated with translation: \$300  
Costs associated with providing a translator: \$1000-3000 depending on the length of the proceeding  
Costs associated with hosting a public hearing: \$1500-3000  
Costs for a court reporter: \$2000
- B. The Department is in the process of securing purchase agreements with translators to provide translating services. The Bureau currently uses in-house staff to assist Spanish speakers with their questions regarding permitting actions.

The Bureau has reviewed the above four factors and, given the importance of this project, the limited involvement of LEP individuals in the past, the Bureau does not plan to provide additional LEP services regarding this permitting action.

The PIP and LEP analysis have been reviewed and approved by the AQB Bureau Chief.

---

Liz Bisbey-Kuehn
