Approved: April 14, 2004
Ms. Derrith Watchman-Moore, Acting Chair, called the meeting of the WQCC to order at 9:00 a.m.

Item #1: Roll Call

Geraldine Madrid-Chavez took roll and noted a quorum was present.

Item #2: Approval of the Agenda

ACTION: Commissioner Sloane moved to approve the agenda as presented. Commissioner Brandvold seconded. Motion carried unanimously.

Item #3: Presentation by New Mexico Game & Fish on the status update of the Gila Trout and Rio Grande Cutthroat Trout Restorations.

Mr. Peter Wilkinson, Mr. David Propst and Ms. Yvette Paroz gave a power point presentation to the Commission on the status update of the Gila Trout and Rio Grande Cutthroat Trout Restoration. The following handouts were discussed and distributed to the Commission:

- Restoration of Costilla #1 Creek to Rio Grande Cutthroat Trout July 2002 – October 2003
- Renovation of West Fork Gila River for Restoration of Gila Trout – September 28 – October 3
• Reintroduction of Rio Grand Cutthroat Trout Into the Waters of Costilla #1 Creek in Colorado and New Mexico
• Environmental Assessment for Restoration of Gila Trout to the Upper West Fork Gila River, Catron County, New Mexico.

Item #4: Formal approval and adoption into the State’s Water Quality Management Plan of the revised Cieneguilla Creek metals (chronic aluminum), turbidity, and fecal coliform TMDLs.

Ms. Lynette Guevara, Surface Water Quality Bureau, requested approval and adoption into the State’s Water Quality Management Plan of the revised Cieneguilla Creek metal, turbidity and fecal coliform TMDLs. Ms. Guevara informed the Commission the reason for the revisions is that the Village of Angel Fire Waste Water Treatment Plant plans to discharge treated effluent into Cieneguilla Creek. When these TMDLs were originally developed and approved, there were no point sources in Cieneguilla Creek. The TMDLs needed to be revised in order to include waste load allocation for aluminum, fecal coliform and turbidity and to examine potential surface water quality impacts associated with this point source. Ms. Guevara noted that the 30-day public comment period started October 14th and ended November 13th.

ACTION: Commissioner Olson moved to approve and adopt into the State’s Water Quality Management Plan of the revised Cieneguilla Creek metals (chronic aluminum), turbidity, and fecal coliform TMDLs. Commissioner Sloane seconded. Motion carried unanimously.

At this time Mr. Kit Roush and Ms. Cindy Huntsman joined the Commission for the briefing and presentation of proposed amendments to the Utility Operator Certification Act.

Item #5: Briefing on proposed amendments to the Utility Operator Certification Act – Presenters Ana Marie Ortiz & Charles Lundstrom

Mr. Charles Lundstrom, Division Director of Water Waste Management, and Ms. Ana Marie Ortiz, Director of NMED Field Operation Division, gave a briefing on the proposed amendments to the Utility Operator Certification Act. Mr. Lundstrom noted that the Utility Operators Certification Board has had input in the draft of the amendments. The Board approved the attachments.

At this time Mr. Jim Norton sat in for Ms. Derrith Watchman-Moore as Acting Chair.

Item #6: Deliberations and Possible Decision In the matter of Richard’s Septic Service.

After deliberations and amendments the following action was taken:
ACTION: Commissioner Olson moved that the Commission accept the facts as presented by the Environment Department that the incidents did occur. Commissioner Sloane seconded. Motion carried unanimously.

ACTION: Commissioner Goad moved Richard’s Septic Service be instructed, if they wish to make the ability to pay argument, they need to submit all required information within 35 days to the Environment Department. If adequate information is not received by the 35th day the Garcias have forgone their opportunity to make the financial ability to pay argument. If Richard’s Septic does submit the information the Environment Department should go ahead and use their usual procedures. Commissioner Sloan seconded. Motion carried unanimously.
