## Introduction

THEMAC Resources Group Ltd (THEMAC Resources) is a Canadian-based resource company focused on acquiring, exploring and developing natural resource properties, bringing innovation and sustainable approaches to mine development, reclamation and community engagement processes.

THEMAC Resources acquired 100% of the Copper Flat Project in May 2011, and is in the preliminary phases of returning the Project, a porphyry copper-molybdenum-gold-silver mine, to production in Sierra County, New Mexico.

**Brief Facts:**

- ❖ Located approximately 150 miles south of Albuquerque, New Mexico and approximately 20 miles southwest of Truth or Consequences, New Mexico.
- ❖ Past producing mine with some civil infrastructure in place: existing foundations, power lines, flood control, water wells, water pipeline and surface roads.
- ❖ More than 250 direct jobs
