NEW MEXICO WATER QUALITY CONTROL COMMISSION
NOTICE OF PUBLIC HEARING TO CONSIDER PROPOSED AMENDMENTS TO THE UNDERGROUND INJECTION CONTROL RULES; 20.6.2.3000 NMAC and 20.6.2.5000 NMAC

The New Mexico Water Quality Control Commission will hold a public hearing beginning at 9:00 a.m. on July 14, 2015 at the Artesia City Hall Chambers, 511 West Texas Avenue, Artesia, New Mexico, 88210 to consider proposed amendments to the New Mexico Water Quality Act rules, 20.6.2 NMAC, proposed in WQCC Docket Number 14-15 (R) by Navajo Refining Company, L.L.C. The proposal addresses the underground injection control rules and would amend Sections 20.6.2.3106-07, 20.6.2.3109, 20.6.2.5002-04, 20.6.2.5101-04, 20.6.2.5200-01, 20.6.2.5204, and 20.6.2.5209-10 NMAC and add new text as 20.6.2.5300 through 20.6.2.5399 NMAC.

In 1982, New Mexico applied for and received Primary Enforcement Authority ("Primacy") from the United States Environmental Protection Agency ("EPA") to administer the Federal Safe Drinking Water Act Underground Injection Control Program in New Mexico. The New Mexico Water Quality Control Commission rules contain the principal parts of New Mexico's approved program delegation. The proposed rule changes that are the subject of the July 14, 2015 hearing seek to amend certain parts of those rules governing Class I underground injection control wells. Specifically, the proposed rule changes would (1) modify the current prohibition on Class I underground injection control wells for hazardous waste to allow oil refineries to seek permits to operate Class I underground injection control wells for hazardous waste that they generate; and (2) authorize the permitting of Class I underground injection control wells for hazardous waste generated by oil refineries that are consistent with federal construction, operation, monitoring, closure, and financial assurance standards. If the Water Quality Control Commission adopts the proposed rule changes, the final rule will be submitted to EPA for approval as part of New Mexico's delegated authority to administer the Underground Injection Control program.

The proposed changes and the pro-

be, received by the Office of the Commission Administrator by 5:00 pm on June 15, 2015, and should reference the name of the regulation, the date of the hearing, and docket number WQCC 14-15 (R). Any rebuttal testimony to the written technical testimony must be submitted to the Office of the Commission Administrator by 5:00 pm on June 29, 2015, and should reference the name of the regulation, the date of the hearing, and docket number WQCC 14-15 (R). All motions related to the hearing must be received by the Office of the Commission Administrator by 5:00 pm on July 6, 2015, and should reference the name of the regulation, the date of the hearing, and docket number WQCC 14-15 (R).

If you are an individual with a disability who needs a reader, amplifier, qualified sign language interpreter, or any other form of auxiliary aid or service to attend or participate in the hearing or meeting, contact Pam Castañeda at least ten days prior to the hearing or as soon as possible at 505.827.2425 or Pam.Castaneda@state.nm.us. Public documents can be provided in various accessible formats. Contact Pam Castañeda if accessible format is needed.

The Commission may make a decision on the proposed regulatory changes at the conclusion of the hearing, or may convene a meeting after the hearing to consider action on the proposal.

En 1982, Nuevo México solicitó y le fue concedida Autoridad Principal de Ejecución ("Primacía") de la Agencia de Protección Ambiental (por sus siglas en inglés, EPA) de los Estados Unidos para administrar la Ley Federal de Agua Limpia Potable para el Programa de Control de Inyección Subterránea en Nuevo México. Los reglamentos de la Comisión de Control de Calidad de Agua de Nuevo México incluyen las partes principales del programa autorizado de delegación de Nuevo México. Los cambios de reglamentos propuestos que son el asunto de la audiencia del 14 de julio del 2015 procuran modificar ciertas partes de aquellos reglamentos que rigen los posos de Clase I de control de inyección subterránea. En particular, los cambios propuestos de reglamentos (1) modificaría la prohibición actual sobre los posos de Clase I de control de inyección subterránea de residuos peligrosos para permitir que refinerías de petróleo soliciten permisos para operar posos de control de inyección subterránea de residuos peligrosos que producen; y (2) autorizaría la concesión de permisos de posos de Clase I de control de inyección subterránea de residuos peligrosos generados por refinerías de petróleo que son coherentes con estándares federales de construcción, operación, seguimiento, cierre, y garantía financiera. Si la Comisión de Control de Calidad de Agua aprueba los cambios propuestos de reglamentos, se los presentará a la EPA para su aprobación como parte de la autoridad delegada de Nuevo México para administrar el programa de Control de Inyección Subterránea.

Los cambios propuestos y el orden procesal que regulan la audiencia podrán ser revisados durante las horas laborales regulares en la oficina de la Administradora de Comisión que se ubica en el edificio de Harold Runnels, 1190 St. Francis Drive, Sala S-2102 Santa Fe, Nuevo México, 87502. Además, se pueden encontrar las copias de las enmiendas propuestas y el orden procesal que regula la audiencia en el sitio Internet del Departamento Ambiental de Nuevo México (por sus siglas en inglés, NMED) en <http://www.nmenv.state.nm.us>. En la dirección indicada arriba estarán copias disponibles para que indi-
