NOTICE OF PUBLIC HEARING TO CONSIDER PROPOSED AMENDMENTS TO THE UNDERGROUND INJECTION CONTROL RULES, 20.6.2.3000 NMAC and 20.6.2.5000 NMAC

The New Mexico Water Quality Control Commission will hold a public hearing beginning at 9:00 a.m. on July 14, 2015 at the Artesia City Hall Chambers, 511 West Texas Avenue, Artesia, New Mexico, 88210 to consider proposed amendments to the New Mexico Water Quality Act rules, 20.6.2 NMAC proposed in WQCC Docket Number 14-15 (R) by Navajo Refining Company, LLC. The proposal addresses the underground injection control rules and would amend Sections 20.6.2.3106-07, 20.6.2.3109, 20.6.2.5002-04, 20.6.2.5101-04, 20.6.2.5200-01, 20.6.2.5204, and 20.6.2.5209-10 NMAC and add new text as 20.6.2.5300 through 20.6.2.5399 NMAC.

In 1982, New Mexico applied for and received Primary Enforcement Authority ("Primacy") from the United States Environmental Protection Agency ("EPA") to administer the Federal Safe Drinking Water Act Underground Injection Control Program in New Mexico. The New Mexico Water Quality Control Commission rules contain the principal parts of New Mexico's approved program delegation. The proposed rule changes that are the subject of the July 14, 2015 hearing seek to amend certain parts of those rules governing Class 1 underground injection control wells. Specifically, the proposed rule changes would (1) modify the current prohibition on Class 1 underground injection control wells for hazardous waste to allow oil refineries to seek permits to operate Class 1 underground injection control wells for hazardous waste that they generate; and (2) authorize the permitting of Class 1 underground injection control wells for hazardous waste generated by oil refineries that are consistent with

such statement prior to the close of the hearing.
