JON GOLDSTEIN
DEPUTY SECRETARY

**Subject: Soil Sampling in the Vicinity of the Waste Isolation Pilot Plant Conducted by NMED/DOE
OB, 2009**

The New Mexico Environment Department (NMED) DOE Oversight Bureau has compiled and assessed laboratory data for soils collected during 2009. The accompanying data report includes results for soils collected from seven sites in the vicinity of the Waste Isolation Pilot plant.

The accompanying graphs for each analyte indicate the results in mBq/g, ± 2 TPU.

Soils were collected from 7 sites around the WIPP at three sampling depths. They were sent to ALS Labs for analysis of ^{241}Am , ^{137}Cs , ^{238}Pu , $^{239/240}\text{Pu}$, ^{90}Sr , ^{234}U , ^{235}U and ^{238}U . There were no findings of the nuclides of interest above the requested detection concentration, except for Uranium, which is a common element in soil. There were no findings of ^{235}U above the minimal detection concentration. The results for ^{234}U ran from a minimum of 3.70 mBq/g at Farfield (5-10 cm), to a maximum of 12.58 mBq/g at Mills Ranch (0-2 cm). The results for ^{238}U showed a minimum of 3.70 mBq/g at WIPP South (5-10 cm) and WIPP North (2-5 cm and 5-10 cm) and a maximum of 12.58 mBq/g at Mills Ranch (2-5 cm).

All of the Uranium results were within the historical range of reported results around the WIPP site and certainly within average range of Uranium found naturally in soils worldwide.

Response

Questions and or comments may be addressed to Thomas Kesterson by phone at (575)-887-6851, by e-mail at thomasl.kesterson@state.nm.us, or to the address in the above letterhead.

Definitions

On Graphs:

MR – Mills Ranch

SR - Smith Ranch

DUP – Field Duplicate

On Table:

Qualifiers/Flags

U – Result is less than the sample specific MDC.

Y1 – Chemical yield is in control at 100-110%. Quantitative yield is assumed.

TI – Nuclide identification is tentative.

LT – Result is less than the Requested MDC, greater than sample specific MDC.

MDC – Minimum Detectable Concentration.

TPU – Total Propagated Uncertainty.
