**Item 2. Approval of Agenda**

Mr. Vigil noted that two of the issues to be discussed in the executive session, *Leavell, et al., v. EIB* and *EIB v. Shoobridge*, listed as part of Agenda Item 9 had been resolved and should be removed from that item.

**Item 5.** Board appointment of a hearing officer in re: EIB 10-02 (A) Helena Chemical Petition for Hearing in Denial of NOI No. 3035 M1-R2.

The Chair discussed the Helena matter and the schedule for that case and asked how many members thought they would be able to attend the four day hearing in Santa Fe and the day in Mesquite. Additionally, she noted that any member who might miss a hearing day, or days, would need to read the transcript for days missed in order to participate in deliberations and voting. After discussion, it appeared that there would be a quorum for the hearing.

Mr. Green volunteered to act as hearing officer in this case.

**Item 6.** Request for Hearing in re: the Matter of Proposed Revisions to 20.7.10 NMAC, Drinking Water. Regarding the adoption of 40 CFR Part 141, EIB 10-03 (R). Bill Grantham, NMED/OGC; Angela Cross, NMED/DWB.

Mr. Grantham introduced Angela Cross, a Civil Engineer in the Department's Drinking Water Bureau. He went on to explain the need for the hearing and the related federal rules involved. He also noted that it is anticipated that the hearing will not be controversial or lengthy. Additionally, he stated that the publication time constraints for noticing the hearing dictated that the hearing be held in September after the 15<sup>th</sup> or, alternatively, at the Board's October 4<sup>th</sup> meeting.

The Chair noted that while no September Board meeting date had been set, there had been discussions regarding holding the Department's greenhouse gas cap and trade hearing on September 20, 2010. She asked Mr. Grantham if he was amenable to having the hearing set immediately prior to the convening of the NMED greenhouse gas case on September 20<sup>th</sup>. He indicated that would be acceptable to his client. There was a brief scheduling discussion.

Mr. Horning volunteered to be hearing officer in this matter with Ms. Dillingham to be his back-up in the event he was unable fulfill his duties.

It was agreed among the parties that the hearing requested would be set on one of two dates, September 20<sup>th</sup> prior to the NMED greenhouse gas hearing convening or, at the outset of the October 4<sup>th</sup> meeting. Chair Dillingham assured Mr. Grantham that the Board would set the hearing date prior to the end of today's meeting.

**Item 7. Board update in re: State climate change activities. Jim Norton, NMED/EPD; Sandra Ely, NMED/EPD.**

Mr. Norton extended his apology to the Board prior to setting out a schedule of five hearings proposed by the Department commencing September, 2010. He set out a brief review of the five proposals.

A lengthy discussion relating to scheduling the proposed hearings and the matters at issue ensued among Board members, Mr. Norton and Ms. Ely.

**Item 8. Request for Hearing in re: the Matter of Proposed New Regulations, 20.2.350 NMAC, Greenhouse Gas Cap and Trade Provisions, EIB 10-04 (R). Eric Ames, NMED/OGC.**

Mr. Ames requested that the Board set the hearing in EIB 10-04 (R) on September 20, 2010, and that a hearing officer be designated. He further noted that the Department proposes that the hearing continue from day-to-day until complete. He also requested that the Board adopt the Department's proposed filing schedule. Mr. Ames estimates the hearing will last for two weeks.

Mr. Green suggested that the Department and NEE explore whether these two hearings could be combined in whole or in part.

A lengthy discussion ensued among interested parties, including proponents and opponents, relating to the Board setting a hearing. There was also discussion about Mr. Green's suggestion as well as a wide variety of proposals relating to procedures and scheduling to be implemented with respect to hearings on both petitions.

Following discussion, at the request of the Chair, Mr. Fredericks and Mr. Ames briefly contrasted the petitions filed with the Board by their respective clients.

General and scheduling discussions resumed.

Following the discussion relating to setting the NMED hearing and discussion of the NEE petition, Chair Dillingham requested that Felicia Orth, Hearing Officer in the NEE case, discuss pertinent issues, including scheduling, with the Board. Ms. Orth noted that she would need Board direction with respect to the scheduling issues. She indicated that she would work diligently with all parties in an effort to streamline both hearings. She also noted that it would be critical for members of the Board to be present at the hearings.

There was Board discussion with Mr. Vigil regarding the two hearings and the reasons for those hearings to be held separately.

Additional Board discussions resumed with various parties relating to the impact of the proposed rule changes.

**Action: Mr. Green moved that the Board accept NMED's Motion to Set Schedule and Assign Hearing Officer in EIB 10-04 (R) the Greenhouse Gas Cap and Trade matter and further, to designate Ms. Orth as Hearing Officer. Mr. Simms seconded.**

The Chair stated that the Board would recess for fifteen minutes in order to review the Department's Motion to Set Schedule and Assign Hearing Officer.

Following the recess the Chair proposed a friendly amendment to Mr. Green's motion, suggesting the revision of Paragraph c. to read "The Department and all other interested parties shall submit notices of intent to present rebuttal technical testimony, including full written testimony and exhibits, on August 30, 2010."
